

# Leukoplakia - Mosaic Plots

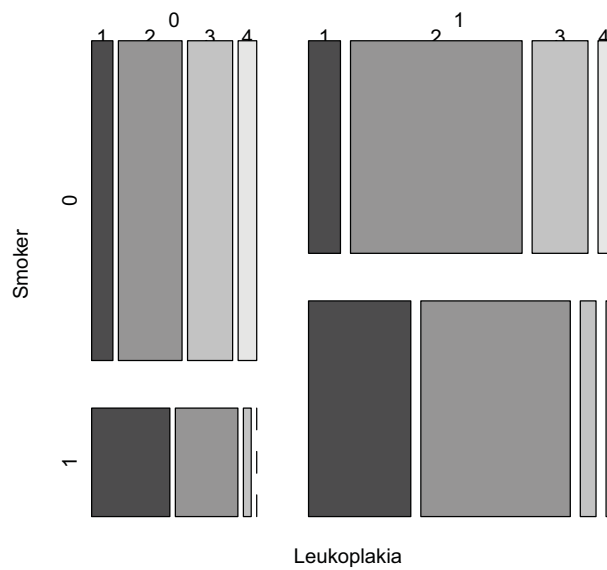

February 1, 2012

The leukoplakia data can be expanded by the command "expand.dft".

```
> library(catdata)
> data(leukoplakia)
> library(vcdExtra)
> leukoplakia<-expand.dft(leukoplakia,freq="Freq")
```

Mosaic plots are created by "mosaicplot".

```
> mosaicplot(~ Leukoplakia+Smoker+Alcohol,main="", data = leukoplakia, color = TRUE, cex.
```

```
> mosaicplot(~ Leukoplakia+Smoker,main="", data = leukoplakia, color = TRUE, cex.axis=1.0
```
